

Right At School at Newberry Junior Right Club for PreK

Program Times: Monday - Friday, 2:30pm - 6pm

Our Junior Right Club environment and instructional approach are based on the belief that young children learn best by doing. We use exploration centers and theme-based projects to promote creative and critical thinking skills. Children have opportunities to investigate what interests them, solve problems, discover relationships, and make comparisons. Students participate in circle time, music and motion, story corner, and "Discovery Stations," featuring hands-on activity centers with multi-sensory manipulatives, such as Play-Doh mats and tangram puzzles, which are all enriching parts of our daily routine that promote socialization, movement, community, fitness, and wellbeing. *Students must be potty-trained.*
